

Prescription Medication Disposal

Self disposal method:

- 1. Keep the medicine in its original container
- 2. Remove or black out your name, address, and prescription number from the bottle
- 3. Follow the instructions below for pill or liquid medications

If pills...

- 1. Add a few drops of rubbing alcohol to the pills
- 2. Seal the vial with the original cap; tape closed
- 3. Place inside another container or a zip-loc baggie
- 4. Place in your trash

If liquid...

- 1. Add kitty litter, coffee grounds, or corn meal to the liquid
- 2. Seal the bottle with the original cap; tape closed
- 3. Place inside another container or a zip-loc baggie
- 4. Place in your trash

Or ask your doctor or pharmacy if they take back medicine for incineration or proper disposal.
