

### Stage 3 Watering Restrictions

Effective November 1, 2013 - there is a change in water restrictions for Stage 3 of the Drought Contingency and **Emergency Water Response plan.** 

Ordinance No. 2760-8-08.

10% Reduction Goal for this stage.

#### At Stage 3 from November 1 March 31, customers may use sprinklers or irrigation systems once every two weeks for landscape/lawn watering. Customers must use the Stage 3 Outdoor Watering Schedule Map and the Watering Week Schedule Calendar to identify what day watering is permitted for their neighborhood.

# Stage 3 Watering Restrictions

From November 1 - March 31 of Stage 3 Watering Restrictions, customers may use sprinklers or irrigation systems once every two weeks for landscape/lawn watering. Customers must use the Stage 3 Outdoor Watering Schedule Map and the Watering Week Schedule Calendar (listed on the flip-side of this flyer) to identify what day watering is permitted for their neighborhood. The City of Allen will strictly enforce water use restrictions. Citations may result in significant fines for each violation. All restrictions from the Water Conservation Plan and Stages 1, 2, and 3 of the Drought Contingency plan apply.

Some of the specific Stage 3 watering restrictions include:

- Limit landscape watering with sprinklers or irrigation systems from November 1
  - March 31 to *once every two weeks*. *Exception:* Trees within a 10 foot radius of trunk, foundations, and shrubs may be watered up to two hours any day by handheld hose, a soaker hose, or a dedicated zone using drip irrigation systems, provided no runoff is occurring. (Please limit this only if necessary as we need to conserve as much as possible to avoid Stage 4 watering restrictions. Hand watering of lawns is not permitted in this exception.)

#### NO WATERING DURING RAIN/ FREEZE EVENTS

## PROHIBIT PLANTING/WATERING OF ANY COOL SEASON GRASS

 Prohibit planting/watering of any cool season grass species (such as ryegrass). (The practice of fall and winter overseeding/ planting of any cool season grass species is prohibited.)

 Prohibit hydroseeding, hydromulching, and sprigging of any grass species.

## INITIATE MANDATORY WATER USE RESTRICTIONS AS FOLLOWS:

- Prohibit hosing of paved areas, buildings, or windows. (Pressure washing of impervious surfaces is allowed.)
- Prohibit operation of all ornamental fountains or other amenity impoundments that use treated water.
- Prohibit washing or rinsing of vehicles by hose unless using a shut-off nozzle.
- Prohibit using water in such a manner as to allow runoff or other waste.

This is not a complete listing of restrictions for Stage 3. For the complete plan and list visit CityOfAllen.org.

Stage 3 restrictions will remain in effect until North Texas Municipal Water District declares changes due to water supply.

For more information on water conservation, visit CityOfAllen.org/ Water-Conservation or call 214.509.3111.
