EXECUTIVE SUMMARY

The City of Allen receives Community Development Block Grant (CDBG) funds each year from the federal government through the U.S. Department of Housing and Urban Development (HUD). The Consolidated Annual Performance and Evaluation Report (CAPER) is designed to report on the progress in carrying out the Annual Action Plan. This CAPER reports the accomplishments of the CDBG program year October 1, 2011 – September 30, 2012. The CAPER provides an overview of the City's efforts and accomplishments in addressing its identified community development needs and priorities during the 2011-2012 program year. Below is a summary of the accomplishments and expenditures for each priority need from this program year.

Home Repair Program

- Consolidated Plan Goal: The City will provide financial assistance for rehabilitation and repair of owner-occupied units. It is anticipated that 45 dwellings will be rehabbed or repaired at a rate of nine per year.
- Results: 9 families received assistance this program year.
- Expenditures: \$167,120.30

Public Service Funding

- Consolidated Plan Goal: Provide support to public service agencies for all classifications of very low to moderate income persons. Services may include emergency assistance with rent and utilities, counseling, food, and clothing, homeless prevention, transportation services, youth services, shelter for battered woman, and hot meals for the elderly.
- Results: 124 persons received assistance through public service agencies.
- Expenditures: \$36,000 to Allen Community Outreach.

• A. INTRODUCTION

The City of Allen receives Community Development Block Grant (CDBG) funds each year from the federal government through the U.S. Department of Housing and Urban Development (HUD). The Consolidated Annual Performance and Evaluation Report (CAPER) is designed to report on the progress in carrying out the Annual Action Plan. The CAPER is also designed to provide the jurisdiction an opportunity to assess its annual performance in relationship to meeting its overall five-year Consolidated Plan priorities and objectives and to discuss what actions or changes it contemplates as a result of its annual performance. This CAPER reports the accomplishments of the CDBG program year October 1, 2011 – September 30, 2012.

B. GENERAL NARRATIVE

1. Assessment of Five-Year Goals and Objectives

The CDBG programs must address objectives that have been identified in the five-year Consolidated Plan developed through a process that involved citizens' input and opportunity for public comment.

The CAPER provides an overview of the City's efforts and accomplishments in addressing its identified community development needs and priorities during the 2011 -2012 program year. In the 2010 Five Year Consolidated Plan, the City identified three goals, repair 45 homes through the Home Rehabilitation Program, provide support to 1000 low-moderate income individuals through local public service agencies, and provide Housing Education for 100 individuals through Housing Education Workshops. During the 2011-2012 program year 9 homes received repairs through the City's Home Rehabilitation program totaling \$167,120.30. In addition 145 individuals received support through Public Service Agencies funded with \$36,000 in CDBG funds. The city conducted one housing education workshop this year and provided education to any individuals making inquires to the city on affordable housing, homeownership, fair housing laws and lead-based paint.

2. Affirmatively Furthering Fair Housing

The City completed an Analysis of Impediments (AI) during the development of the Consolidated Plan in 2010. The analysis included a review of barriers to fair housingchoice.

The Analysis of Impediments identifies several areas where potential impediments to fair housing may exist. The AI report provides a summary of those impediments which included a lack of education and awareness about fair housing, a limited market of affordable housing units, a decreasing supply of vacant land, substandard housing conditions, and limited public transportation options. During the 2011-2012 programyears, staff began implementing recommendations from the AI to overcome the

effects of the identified.

CDBG programs directly further fair housing by making funds available to low-moderate income persons through an owner-occupied housing rehabilitation program. This program is designed primarily to increase the housing opportunities for low income persons. However, it is also implemented to promote fair housing in the City.

During this program year, the CDBG housing programs were implemented to assist in overcoming the affordability barriers facing low-income residents. In addition, through the planning and development processes, the Planning Department continues to advocate a balance of new housing types. Results can be seen in an increase in discussions regarding new housing developments that include town homes, small lot developments and mixed-use lofts and condominiums. The City also provides fair housing information to program participants, public service agencies, and any interested individuals or groups. Additional actions include: promotion of home ownership programs, assistance for and enforcement of property and house maintenance and improvements, neighborhood cleanup projects and ongoing discussions on public transit and rail transit.

In support of its efforts to affirmatively further Fair Housing Choice, the Planning Department acts as a resource for fair housing complaints. This year staff has received no fair housing complaints. A special file was created to document all efforts to outreach minorities and affirmatively further Fair Housing Choice. In addition, the City continues to remain active in attending related training. Concepts learned in training and interactions with the community contribute to a successful move toward affirmatively furthering Fair Housing.

3. Affordable Housing

The availability of affordable housing appears limited as relatively few low cost homes are for sale in Allen. What homes are available at lower prices are typically in poor condition or sell very quickly, pointing to a possible demand for that priced housing.

Development costs often discourage the construction of new lower priced homes. The current housing market, combined with City land use regulations and fees for residential development, contributes to a lack of interest by most developers and builders to construct affordable housing. Additionally, limited multifamily dwellings are being developed that would be considered affordably priced housing.

The City of Allen works to promote the acceptance of affordable housing and continues efforts to maintain a decent supply of affordable housing through the CDBG programs. In this program year the City spent \$167,120.30 on 9 home repair projects. In addition, the City has implemented neighborhood improvement programs to stabilize older neighborhoods. One of the goals of this program is to preserve the existing housing as a source of safe and decent affordable housing.

Number of renter households assisted: 0 Number of extremely low-income owner households assisted: Number of low-income owner households assisted: 5 Number of moderate-income owner households assisted: 4

There are very few instances of "worse case needs" in Allen. Renters with sever cost burdens find assistance through local public service agencies, including Allen Community Outreach which receives a grant from the City of Allen. Through additional efforts by the City, there is no substandard housing in Allen. Persons with disabilities qualify to participate in the Home Repair Program to make accessibility modifications to their homes. This year there were two applicants.

4. Continuum of Care

Homeless prevention remains a low priority need in Allen. The City has primarily addressed the needs of the homeless through support of subrecipients such as Allen Community Outreach, who provides rental, mortgage and utility assistance to prevent homelessness. City staff continues to be an active participant in the Metro Dallas Homeless Alliance Continuum of Care, which has implemented a Plan to End Chronic Homelessness in Dallas and Collin County. Through this process the City will participate in the Collin County Homeless Coalition's effort to secure Emergency Shelter Grant funding through the Texas Department of Housing and Community Affairs for the 2011 program year. According to the available information and consultation with service agencies, there are more individuals and families who are homeless requiring shelter and supportive housing in order to live as independently as possible due to the recent economy. The City continues to assist public service agencies to meet underserved needs.

5. Other Actions

During the 2011-2012 CDBG program year, the City of Allen took a number of actions related to its Consolidated Plan objectives, described in the following text.

a. Lead-based paint

The City of Allen has few incidents of lead contamination related to the use of lead-based paint in its housing stock. This is mostly due to the relatively young age of the housing stock. Staff has attended environmental training and has incorporated the assessment and monitoring techniques that are required by HUD in the home repair program and other federally funded projects.

In order to reduce and abate lead-based paint hazards, the City provided information and technical assistance to individuals undertaking home improvement projects. The City also utilized CDBG funds for the assessment of lead-based paint in housing units receiving federal funds. In this program year, two houses were tested for lead paint andone tested positive. The City took steps to mitigate the lead based paint in the one home that tested positive.

b. Compliance and Monitoring

Allen Community Outreach was monitored over the past year to ensure compliance and technical assistance with the CDBG program and regulations. Monitoring includes an onsite and desk review of financial and programmatic compliance on a regular basis to ensure contract compliance. Staff visited the public service agency office in the summer of 2012 to review information regarding Allen clients.

c. Anti-Poverty Strategies

Because of the high cost of living in this area, there are few families who are living below the poverty level. These families are transient in nature and move from relatives and friend's homes, emergency shelter sites and other short term accommodations as they search for somewhere to stay in and out of Allen. Those families who need financial help and a home are referred to appropriate housing programs and social service agencies that can provide counseling, shelter and programs to help them become self-sufficient. Staff also coordinates efforts with other organizations like the Collin County Homeless Coalition and Metro Dallas Homeless Alliance, to address these issues on a regional level.

d. Institutional Structure and Coordination

In an effort to eliminate gaps in institutional structures, the City remains actively involved with outside agencies and regional governmental entities. The City coordinates with public service agencies, local housing authorities and surrounding communities to address public service needs related to housing activities and the underserved. The City also participates with the Collin County Homeless Coalition and the Metro Dallas Homeless Alliance to maximize resources for the provision of services to the homeless population.

e. Obstacles to Meeting Underserved Needs

Part of the obstacles to meeting the needs of the underserved is eliminating the gaps in institutional structure discussed above. In addition the City leverages CDBG funds with City funded grants to other public service agencies in the area to address the needs of the underserved.

6. Leveraging Resources

The City of Allen is able to provide funding to public service agencies that is used as leverage for obtaining additional funding. Through this process, programs such as the rent, mortgage, and utility assistance program operated by Allen Community Outreach are able to acquire additional funds. This year the City has also funded public service agencies with \$50,000 of City funds. The City also funds all of the staff salaries and most administrative costs for the program. The City continues to seek additional funding from local, state and federal resources to maximize the effectiveness of the CDBG funds.

7. Citizen Comments

The City of Allen continues to follow the public participation plan established for all CDBG activities. A notice was published in one newspaper that covers the metroplex announcing the availability of the 2010 CAPER for public examination and citizen comment. The public review period will begin on November 1, 2012 and run through November 30, 2012. The CAPER document was available on the City's website and at City Hall. The report was also sent to all Public Service agencies for comment. No public comments were received during the public comment period. An advertised public hearing was held on November 27, 2012 and a presentation given to the City Council. The presentation was also aired on local community television. There was no public comment received during the public hearing.

8. Self Evaluation

This was the seventh year that the City of Allen has successfully administered CDBG funded programs. The results of this program year were very positive. Overall, the programs met the goals established in the Consolidated Plan. In addition, 86% of the awarded grant funds were spent. What follows is a summary evaluation of each of the programs and its relationship to achieving the goals of the Consolidated Plan. In addition, the tables in the Appendices provide additional detailed information.

| Goal | Strategy | 2011 Goal | 2011 Actual | 5 Year Goal | % of 5 Year Goal |
|---------------------------------|-------------------------|--------------|----------------|----------------|---------------------|
| Safe / affordable housing | Home repair program | 9 | 9 | 45 | 20% |
| Public services | Public services funding | 200 | 123 | 1000 | 15% |
| Housing Education | Housing Education | 20 | 20 | 100 | 0% |

Home Repair Program

- Consolidated Plan Goal: The City will provide financial assistance for rehabilitation and repair of owner-occupied units. It is anticipated that 45 dwellings will be rehabbed or repaired at a rate of nine per year.
- Results: 9 families received assistance this program year.
- Budget: \$200,574
- Expenditures: \$167,120.30

The Home Repair Program provides assistance to eligible homeowners to make necessary repairs to their homes and ensure minimum housing standards are maintained. The objective is to preserve and expand the supply of decent, safe, and affordable housing through the rehabilitation of existing residential property. Demand for this program continues to be higher than expected especially with the poor economy. One barrier to the program is the availability and quality of contractors.

Public Service Funding

- Consolidated Plan Goal: Provide support to public service agencies for all classifications of very low to moderate income persons. It is anticipated that up to 200 persons could benefit from this funding each year. The City plans to fund public service activities out of CDBG at the maximum level allowed. Service may include emergency assistance with rent and utilities, counseling, food, and clothing, homeless prevention, transportation services, youth services and child care services.
- Results: 123 persons received assistance through public service agencies this program year.

Budget: \$36,000Expenditures: \$36,000

This program year the City funded one public service agency. Below is a summary of the program. One significant barrier has been the regional nature of some of the agencies that serve Allen. Many of the agencies serve the entire county, and therefore only a portion of the clients are Allen residents. This, and the unpredictability of the demand from only Allen residents, limits the funding that can be provided. In addition the City has started funding additional public service agencies with City funds.

Allen Community Outreach

Allen Community Outreach (ACO) was awarded \$36,000 in funding to operate a rent and utility assistance program for eligible families. The goal of this program is to provide short term assistance to families in need, to get them through hard times and prevent them from becoming homeless. This year the program assisted 123 people and spent the entire \$36,000 grant award.

Housing Education Seminar

In the 2010-2014 Consolidated Plan the City identified housing education as a goal. The City stated that two workshops during that five year period would be held for the purpose of educating the public on affordable housing, homeownership, fair housing laws, and lead-based paint hazards. Though no workshops were held this year, the 2011-2012 Action Plan states that one housing education workshop will held during that year. In addition staff provided housing education to any individuals making inquires to the city on affordable housing, homeownership, fair housing laws and lead-based paint.

C. CDBG Narrative and Accomplishments

1. Assessment of Use of Funds

The activities funded from the CDBG program for 201,10- 201,21 corresponded directly to activities budgeted in the Annual Action Plan and the goals of the Consolidated Plan. Throughout the year, changes were made to the anticipated CDBG allocations outlined in the Annual Action Plan to meet program demands. Additional dollars available from funding of projects that did not move forward were reallocated to be used for other projects displaying a greater demand throughout the year. There is roughly \$60,000 unliquidated obligations or funds awaiting project identification. Those funds will be used to help complete two home rehabilitation projects which were not completed in the 2012 year. Any funds remaining will be allocated to future City of Allen CDBG projects. The results are summarized below and a more detailed explanation is available in Section B.8 Self-Evaluation.

| Program | Budget | Actual | % Budget |
|--------------------------|-----------|--------------|----------|
| Administration | \$10,000 | \$5,895.75 | 108% |
| Home Repair | \$200,574 | \$167,120.30 | 70% |
| Allen Community Outreach | \$36,000 | \$36,000 | 100% |
| Total | \$288,808 | \$217,366.76 | 75% |

2. Nature and Reasons for Changes in Program Objectives

During this program year, no changes were made to the Community Development Block Grant Program objectives identified in the Consolidated Plan.

3. Assessment of Performance on Consolidated Plan

This section of the PY 2011 CAPER assesses the City's efforts in carrying out the planned actions described in the plan as part of the City's certification that it will follow an adopted and HUD approved Consolidated Plan. The items below are outlined to highlight that the City of Allen has endeavored to implement all planned actions and strategies.

In accordance with the 2010-2014 Consolidated Plan, the City of Allen has:

- Followed an adopted and HUD-approved Citizen Participation Plan;
- Implemented all activities, programs and projects in accordance with all applicable local, State and Federal laws;
- Used all CDBG funds exclusively for the **three national objectives** and complied with the **overall LMI persons requirement**; and
- Followed **anti-displacement** policies and complied with the requirements of the Uniform Relocation Act and Section 104(d).

- During this program year, the City **pursued all resources** as identified in the 2011-2012 Action Plan. In addition, the City continues to fund most of the staff and administrative costs associated with implementing the program.
- There were no requests for **certifications of consistency** for HUD programs during this program year.
- The City did not take any actions that **hindered implementation of the Consolidated Plan**.

In the 2010-2014 Consolidated Plan, the City identified the resources that could be pursued during the period covered by the plan. To date, every effort has been engaged to secure all non-housing resources available to the community.

4. Performance Measurement System

Outcome Measures

The following outcome measures for the 2011-2012 program year have been identified for each activity in accordance with the CDBG Outcome Performance Measurement System:

- 1. Eleven households have sustained affordable housing though the home repair program for the purpose of providing decent affordable housing.
- 2. One-Hundred and twenty-three persons have sustained affordable housing through rent and utility assistance for the purpose of providing decent affordable housing.

11

D. Geographic Distribution

The City of Allen has targeted three low-income neighborhoods for implementation of the CDBG programs. In addition, only homes in these neighborhoods are eligible for participation in the Home Repair Program. Public service funding was used through public service agencies to help any eligible Allen residents.
